

**INSTRUCTIONS FOR COMPLETING  
EFMP SCREENING FOR OVERSEAS MOVE OR  
COMMAND SPONSORSHIP**

**Please read and follow these instructions PRIOR to reporting for family member screening:**

1. Obtain a DA-5888 from the Military personnel Division. Per DA EEG 06-75, items 1-8 must be completed by Personnel before being presented to the Medical Treatment Facility. "The medical treatment facility will not screen family members unless part A is completed and authenticated by the MPD or PSC representative."
2. Ensure your family members are enrolled in DEERS.
3. Complete the DA-7246 (EFMP Screening Questionnaire) at the EFMP office.
4. List all family members being screened and answer the questions only for those family members accompanying the ADSM to the overseas location.
5. Family members may be interviewed, either in person or by telephone, to discuss EFMP and any health issues that may exist. Please either bring your family member with you to the screening or be able to contact them via telephone during the screening time if needed. All family members requesting Command Sponsorship must present medical documentation of health to include any special diagnosis and specialty care required. Be advised, those warranting consideration for the EFMP program must be enrolled.
6. All dependents must have a physical exam within the last 6 – 8 months prior to departure. If your dependents had a physical in the past 6 -8 months you may provide a copy of that evaluation or you may schedule an appointment for a physical and bring documentation of results with you to your EFMP screening appointment. You should have a DA 5888-1 and a physical exam form done for screening purposes.
7. When you have completed the above requirements, report to the Family Care Clinic B with the documents listed to finish the screening.
